

Interurban Trolley Stroller Policy

To ensure the safety of children and other passengers on the Interurban Trolley, the following guidelines are asked to be followed in terms of strollers on the trolley:

- Folding the stroller not only makes it easier for other customers to get on and off the bus, but it makes the ride safer for the adult customer and child. A child in a stroller runs the risk of being injured as a result of sudden bus movements.
- Please remove the child from the stroller and fold the stroller prior to boarding the bus.
- The folded stroller should be stored under or between the seats and out of the way. Strollers may not block the aisle or doors at any time.
- The child must be held in the lap of the adult customer or in the seat alongside the adult for the duration of the ride. The care and control of the child is the responsibility of the adult passenger.
- Operators are unable to assist with the boarding, folding and storing of strollers.
